RESIDENCE

BESTSELLER 2023

JVC is one of the most sought-after districts among buyers and tenants, and for good reason.

Future Growth

Due to the Dubai 2040 Urban Master Plan, the JVC area is a priority area for the urban planning authorities. Its central location to the World EXPO 2020 and Al Maktoum International Airport is among the main reasons for the uprising interest in the place.

Privacy

Despite its proximity to the main attractions, the area is far from crowded tourist routes and all the hustle and bustle of a big city. It is a quiet urban oasis of villas, townhouses, and elegant low-to-mid-rise houses.

Transport Accessibility

JVC is located in the heart of New Dubai and is well connected to the city through 3 main highways: Al Khail, Hessa, and MBZ Road. As part of the "20-minute city" program, the construction of the Blue Line of the metro is expected.

City within a City

One of the most significant advantages of the area is that all the necessary infrastructure is within walking distance. Supermarkets, parks, restaurants, fitness centers, and swimming pools are located nearby or in your home

Family-Friendly Environment

JVC is a quiet area with playgrounds, landscaped parks (more than 30), kindergartens, and schools with a good reputation.

Affordability

Jumeirah Village Circle, a hidden gem, offers a perfect blend of quality and affordability.
